

## Agricult**SURE**

“The last ten years in Zambia have been amazing! We have seen how God have grown our small project in a remote area of Zambia into a significantly larger project that impacts many lives on a daily basis!”

“When looking back we definitely know that its been impossible to be where we are today if not for the people that were added to us along the way! We realize that there were some “game-changer” moments, one of these being the day we met Kobus Hurter owner of **Agricult**SURE****, 5 years ago.”

“The knowledge and advise Kobus gave us, and the love with which he gave it, has changed our small project into a self-sustainable model for the rest of Africa. Kobus through his company **Agricult**SURE**** will stay a key in God’s hand to unlock the potential in Africa. We will always be grateful towards him.”
